Forms CE-63A/B, "Annual Solar Thermal Collector Manufacturers Survey" and "Annual Photovoltaic Module/Cell Manufacturers Survey"

AGENCY: Energy Information Administration, Department of Energy.

ACTION: Notice of the proposed extension of the Forms CE-63A/B, "Annual Solar Thermal Collector Manufacturers Survey" and "Annual Photovoltaic Module/Cell Manufacturers Survey," and solicitation of comments.

SUMMARY: The Energy Information Administration (EIA), as part of its continuing effort to reduce paperwork and respondent burden (required by the Paperwork Reduction Act of 1980), conducts a presurvey consultation program to provide the general public and other Federal agencies the opportunity to comment on continuing or proposed new data collection forms. This program helps to ensure that requested data can be provided in the desired format, reporting burden is minimized, data collection forms are clearly understood, and that the impact of collection requirements on respondents can be properly assessed. Currently, EIA is soliciting comments concerning the proposed extension of

the Forms CE-63A/B, "Annual Solar Thermal Collector Manufacturers Survey" and "Annual Photovoltaic Module/Cell Manufacturers Survey."

DATES: Written comments must be submitted by April 13, 1995. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact person listed below of your intention to do so as soon as possible.

ADDRESSES: Send comments to Peter Holihan, EI-522, Energy Information Administration, U.S. Department of Energy, Washington, D.C. 20585. Phone: (202) 254-5432.

SUPPLEMENTARY INFORMATION:

- I. Background
- II. Current Actions
- III. Request for Comments

I. Background

In order to fulfill its responsibilities under the Federal Energy Administration Act of 1974 (Pub. L. 93-275) and the Department of Energy Organization Act (Pub. L. 95-91), the Energy Information Administration is obliged to carry out a comprehensive, and integrated energy data and information program for the collection, evaluation, assembly, analysis, and dissemination of data and information relating to energy resource reserves, production, demand, technology and relevant economic and statistical information relating to the adequacy of energy resources to meet demands in the near and longer term future for the Nation's economic and social needs.

Form CE-63A collects data on solar thermal collector shipments, solar thermal systems, and solar-related manufacturing, marketing, and geographic information from companies in the United States that are engaged in manufacturing or importing solar thermal collectors. Solar thermal shipments are in terms of square feet.

Form CE-63B collects data on photovoltaic cell and module shipments, photovoltaic systems, and photovoltaic-related manufacturing and marketing information from companies in the United States that are engaged in manufacturing or importing photovoltaic cells and modules. Photovoltaic cell and module shipments are in terms of electrical capacity expressed in peak kilowatts.

II. Current Actions

At this time, the EIA is proposing a three-year extension of Forms CE-63A/B. The EIA is planning to meet with solar industry companies and associations, DOE personnel, and other interested parties to discuss Forms CE-63A/B. If changes are made to Forms CE-63A and/or CE-63B as a result of this notice, the meeting, or other activities, the changes will be highlighted in the **Federal Register** notice announcing the submission of the forms to the Office of Management and Budget later this year.

III. Request for Comments

Prospective respondents and other interested parties should comment on the proposed extension of the Forms CE-63A/B. The following general guidelines are provided to assist in the preparation of responses. When commenting, please indicate to which form your comments apply.

As a potential respondent:

A. Are the instructions and definitions clear and sufficient? If not, which instructions require clarification?

B. Can the data be submitted using the definitions included in the instructions?

C. Can data be submitted in accordance with the response time specified in the instructions?

D. Public reporting burden for this collection is estimated to average 3 hours per response. How much time, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information, do you estimate it will require you to complete and submit the required form?

E. What is the estimated cost of completing this form, including the direct and indirect costs associated with the data collection? Direct costs should include all costs, such as administrative costs, directly attributable to providing this information.

F. How can the form be improved?

G. Do you know of any other Federal, State, or local agency that collects similar data? If you do, specify the agency, the data element(s), and the means of collection.

As a potential user:

A. Can you use data at the levels of detail indicated on the form?

B. For what purpose would you use the data? Be specific.

C. How could the form be improved to better meet your specific needs?

D. Are there alternate sources of data and do you use them? What are their deficiencies and/or strengths?

EIA is also interested in receiving comments from persons regarding their

views on the need for the information contained in the "Annual Solar Thermal Collector Manufacturers Survey" and "Annual Photovoltaic Module/Cell Manufacturers Survey."

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of the forms; they also will become a matter of public record.

Statutory Authority: Section 2(a) of the Paperwork Reduction Act of 1980, (Pub. L. 96-511), which amended Chapter 35 of Title 44 United States Code (See 44 U.S.C. § 3506(a) and (c)(1)).
